

Additional Car Park Instructions - KXCL, Swanley Saturday 23rd

This is all camera controlled. Be careful to give your registration correctly.

For "drop offs", once you have entered you will not be charged if you leave within 15 minutes.

Both car parks have machines for coin, or contactless card payments. Both have the capacity to pay by App. The Apps are shown in the photos. The two car parks have different location numbers. Charge off-season is only £2 now.

The same charges apply on the grass overflow parking areas. With the forecast for Saturday, these overflow areas may not be useable.

A large area of the Lower Car Park does not have bays marked, but you may be able to see in the photo, that with good parking we should be able to get 4 rows of cars.
